<https://github.com/Williamconnelly>

Technical Skills:

- HTML5, CSS3, JavaScript
- Node.js, Express, React
- Python, Django
- MongoDB, PostgreSQL, Sequelize

Projects:

JavaScript Arcade Game:

Created a JavaScript-based game in the style of a classic arcade-shooter using jQuery and DOM manipulation.

Film Cataloguing Node App:

Developed a film cataloguing web app where users could track, rate, and receive statistics about their favorite movies. Built using Node, Express, Postgres, and the OMDb API.

Experiences:

Freelance Home Services

June 2014 – May 2018

- Residential Clients, Bainbridge Island, WA

Catered to a variety of freelance clientele requests ranging from house and yard maintenance, to pet care, farm-work, and moving.

Visual Media Blogger

April 2015 - June 2017

- Cauthan.wordpress.com

Created and maintained a self-directed, visual-media blog which accumulated over 25,000 views and a dedicated social following over it's two-year span. Contributed over 200 posts including over 100 analytical reviews and in-depth summaries of contemporary TV shows and movies.

Education & Awards:

General Assembly, Seattle, WA

May 2018 - Current

Full-Stack Web Development Immersive Program Learning to build Full-Stack web applications using the fundamental front-end languages, the MERN stack, and Python.

Evergreen State College, Olympia, WA

2015

Honors Graduate, Bachelor of Arts - Creative Writing major, minor in Literature

Eagle Scout

June 2011

- Boy Scouts of America, Troop 1496, Bainbridge Island, WA

Achieved Scouting's highest honor, awarded to only 5% of all Boy Scouts.
