williamconnelly.dev@gmail.com | (206) 369-0037 | <https://github.com/Williamconnelly>
williamconnelly.github.io | Bainbridge Island, WA

Skills:

Front-End

HTML5 | CSS3 | JavaScript
React | jQuery | Materialize

Back-End

Node.js | Express | PostgreSQL
MongoDB | Python | Django

Other

Sequelize | Mongoose
Git/Github | VS Code

Projects:

JavaScript Arcade Game:

Created a JavaScript-centric game in the style of a classic arcade-shooter using jQuery and DOM manipulation.

Good Market:

Collaborated with 2 other developers to make a charitable e-commerce site using Python.

Film Cataloguing Node App:

Developed a film-cataloguing, web app where users can track, rate, and receive statistics about their favorite movies. Built using Node, Express, Postgres, and the OMDb API.

Punch Card React App:

Worked alongside 3 other developers to create a mock-up application which allows restaurants to digitize their reward cards and for users to punch them on their phone. Built using React, Material-UI, and MongoDB.

Experiences:

Freelance Home Services

June 2014 – May 2018

- Residential Clients, Bainbridge Island, WA -

Catered to a variety of freelance clientele requests ranging from house and yard maintenance, to pet care, farm-work, and moving.
